The Practice

The course is spread on 2 months, where we meet on Saturdays and Sundays (exact dates to be mentioned) at our Antelias branch, to share knowledge; it'll be practice focused as well. We will analyze, break down, learn how to perform, adjust, and teach various asanas and there's a big space for creativity and building up sequences!

You will learn and practice a wide variety of yoga asanas, including standing poses, seated poses, inversions, backbends, twists, and more. The focus is on understanding the alignment, benefits, modifications, and contraindications of each pose.

The anatomy section will go along with the postures you are learning, as you will understand the movement patterns, how to practically apply them in your practice and the effect of asana on the joints, bones, muscles, and tissues. We'll also tackle the connection of the mind to our body parts through the nervous system.

Understanding the human body's anatomy is crucial for teaching yoga safely and effectively. Our YTT courses often include anatomy lessons, highlighting the musculoskeletal system and its relevance to various yoga poses.

This will continue in the 6 days residential at the end of the course.

The Spirit

The Spiritual aspects of our Yoga Teacher Training course will include:

Philosophy: Studying the foundational texts of yoga, such as the Yoga Sutras of Patanjali the Bhagavad Gita, to understand the philosophical principles that underpin the practice of yoga.

Meditation and Mindfulness: Learning and practicing various meditation and mindfulness techniques to cultivate inner peace, self-awareness, and spiritual growth.

Self-Inquiry: Encouraging students to explore their inner selves, beliefs, and values to enhance personal development and authenticity as yoga teachers.

Pranayama: Exploring different breathing techniques to harmonize the body and mind and access higher states of consciousness.

Ethics and Yamas/Niyamas: Understanding the ethical principles and moral guidelines outlined in yoga philosophy that help practitioners lead a more compassionate and mindful life.

Chakras and Energy: Learning about the chakra system and the concept of energy centers within the body to promote overall well-being and spiritual balance.

Mantras and Chanting: Exploring the power of sacred sounds and chanting to deepen the spiritual experience.

What To Expect

Mornings will begin with pranayama, meditation and mantra chanting, followed by Asana Practice.

We'll be focused on deep learning of asanas with an emphasis on alignment, adjustments & teaching methodology. You will dive into the theoretical part, studying Yoga Philosophy or Anatomy.

You'll be introduced to different styles of yoga like kids and prenatal and specialized workshops.

You'll have breaks to bond, chat, study, discuss, and off course have yummy snacks!

Above all we will not forget to enjoy ourselves and have fun in the process!. The ultimate goal is self realization and happiness and creating an experience that we will remember for the rest of our lives.
